

April Homework

Language Arts

1. Read a story to someone in your family
2. Help someone read a recipe and cook
3. Write as many classmates names as you can
4. Draw a picture of your family and write all of their names
5. Select a person in your family and write 3 sentences about them
6. Identify the characters and the settings in your Overnight Book
7. Write your first and last name; now circle all of the vowel letters
8. Identify the problem and the solution in your Overnight Book
9. Learn a poem

Math

10. Write the dates on your April calendar
11. Take your socks and make an ABC pattern
12. Go to the store and look at the price of 3 cereals; which one costs the most; which one the least
13. Take your Mom's and Dad's coins and sort them; how much money is there in pennies; in nickels; in dimes; in quarters?
14. Take the measuring spoons and a measuring cup from your kitchen; see how many tablespoons it takes to make a cup of water; don't forget to clean up
15. Take a small bowl of beans; count them by 1's, 2's, 5's, and 10's; which way do you think was the best way to count
16. Trace the right hand of each family member, cut them out and arrange them from smallest to largest

Other

17. Make little business cards and write your phone number on them; give them to friends
18. Try skipping and galloping up and down the driveway
19. Sing a song to someone you love
20. Predict how many days it will rain in April; mark your calendar to see how close your prediction was to the number of rainy days
21. Look at your March calendar, how close was your prediction for windy days? Discuss your results with someone in your family
22. Take some watercolors and try mixing two colors at a time to see what colors you get; write down what two colors make a third color
